

5th October 2020

FAO Mr Carwyn Weller – re. harassment causing alarm and distress.

Thank you for your 'message' 4th Oct 2020:

"I'm not interested in your games so unless you have something useful and mature to say stop contacting me and leave my family alone"

Your response (which we both know is a sly continuation of harassment) falls into three parts.

To address the second part "something useful and mature to say";

I contacted you suggesting you did not trespass in several areas on my property ("Suggest keep dogs off my property. All three places you had them today that is.").

Then to ascertain your ability to comprehend the situation ("Tell me this 'police custody officer Carwyn Weller' isn't you?"). [worded with assumption it is and no reply would confirm so]

These were in my consideration both 'useful' and 'mature'.

The third part "and leave my family alone" has no foundation; I have done nothing to you or your family.

It is you and your family that are travelling some distance visiting me with harassment and intimidation on my property with continual trespass along with your out of control pack of baying dogs whose intimidating growling you seem to find amusing.

And of course the recorded illegal activities of your relatives, again, on my property.

Yet perversely in the first part "not interested in your games" you define this as my "games"; you will be assured I gain no amusement from this alarming set of affairs you and your family instigated and continue (on my property).

Indeed, it must be put to you these are in fact your 'games'.

You and your family alone have the ability to stop 'your games'; that is the harassment of an elderly individual on his property causing alarm and distress.

The last thing I want is further contact of any type with you or your family.

Please cease these unacceptable activities and leave me alone.
